The employment potential of healthcare industry in Germany:

For the past 10 years, the healthcare industry in Germany has risen by 4.1% every year and has grown faster than the German economy itself. The official statistics shows that roughly 1 million people work in the country's nursing and allied healthcare professions.

- It is projected that 3 million nurses will be needed by 2060, given Germany's aging population. In late 2015, there were 2.9 million individuals in need of care — by 2030, this figure is expected to rise to 4.1 million. — by 2030, this figure is expected to rise to 4.1 million.
- Currently, an open nursing position remains unfilled for an average of 171 days, the worst average among all professions.
- The number of people requiring old-age care continues to rise in a trend that is expected to last until 2060.
- The share of geriatric nurses from abroad has likewise been rising for years and is currently at 11 percent.

Karriereweg being a cooperation partner in India for German employer groups who hold the coveted „Faire AnwerbungPflege Deutschland“ seal of approval for recruitment of healthcare professionals in Germany. Why KARRIEREWEG a trusted partner in your stride @ "Registered Nurse" in Germany?

In general, graduates from different countries who have diploma/degree in medical domains such as 'Nurses' cannot have a direct equivalence in Germany.

We take care of assisting graduated Nurses and health professionals to prepare and process 'equivalency' applications in Germany. After processing your application for certificate equivalency in Germany, normally it takes 18 weeks for credibility check and equivalence possibility.

Upon completion of the process (Anerkennung), the candidate receives full or partial equivalence with some deficit (theoretical or practical).

Our program offers you the following without any cost:

- Free German Language Training for all enrolled candidates (A1 to B2) in Thiruvananthapuram/Trivandrum (southern region) and Chandigarh (northern region) at our training facilities; 05 days *4 hours per day.
- Scholarship / Stipend for all language trainees upon completion of each phase to take care of your living expenses.
- Unique technical language training here in India to prepare you for the recognition examination when you land up in Germany.
- Exam preparation and the cost of B2 examination fee will be borne by us.
- All documentation/ attestation/ translation on behalf of you free of cost.
- Recognition of all documents in Germany.
- Schedule job interviews upon completion of A2 level.
- Employer Pre-solution for candidates with 2+years experience from A1 Level.
- Job contract from prospective employer.
- Visa processing in India.
- Flight tickets (sponsored by your future employer).
- Accommodation arrangement upon reaching Germany.
- Coordination for professional skill examination.
- Your enrollment as registered nurse under German Healthcare System.
- Assistance for reunion visa.
